

X100+ POLYPROPYLENE VESSEL

NEW!

New and improved MWF X100+ vessel replaces the highly sought-after FSI X100 Filter Housing. The MWF X100+ is a cost-effective solution which is easy to clean and resistant to a wide range of chemicals. The MWF X100+ vessel comes complete with twist-off lid featuring the new and improved dual seal design and comes complete with a polypropylene basket and two Buna gaskets.

Specifications

- 100% FDA compliant polypropylene construction (with a UV inhibitor for all-weather durability)
- 2" NPT side inlet and bottom outlet
- 1/4" NPT lid port for pressure gauge and vent valve by others
- 100 PSIG maximum pressure
- 110 F maximum temperature

For potable water applications

- The MWF X100+ meets the requirements of NSF/ANSI/CAN 61- 2022, Section 8 "Drinking water system components - Health effects." In addition, these filters are made using polypropylene complying with FDA CFR 177.1520

Midwest Filter has the largest selection of X100 accessories!
